PHONE-IN SYSTEM

Time Tracking and Labor Collection Solution for your Mobile Workforce

Manage and track workforce - mobile, transient or geographically diverse. ANYTIME, ANYWHERE in REAL-TIME!

The ideal workforce management solution for construction businesses, housekeeping services, home health care, and other mobile business:

- Do you have employees who work among multiple locations?
- Do you track job transfers as your employees work from one location to another?
- Do you have a need for labor distribution or client billing for your mobile workforce?

Give your employees the power of a full-featured time clock and self-service kiosk in the field and realize the following benefits:

- Real-time data, no polling and/or data collection required
- No waiting for hard copy paperwork to arrive
- Decrease supervisor data entry time for field employees
- Increase employee involvement in daily workflow processes (punching, schedules, etc.)
- Scalable solution to meet the requirements of 5 or 5,000+ remote employees
- Fully-integrated solution, no 3rd party and support headaches
