Affordable small business timekeeping solution with 3 amazing options to choose from...

NOVAtime 1000 SBE PC Key-In

NOVAtime 1000 SBE PC-Key-In is an inexpensive yet robust Time and Attendance solution designed for small businesses with up to 100 active employees. The system includes a detailed easy-to-understand Reference Guide, which will walk you through all the steps needed to install and configure the software.

The PC-Key-In software interface (also known as PC Punch) is a workstation-based time clock that provides an efficient and inexpensive alternative to wall-mounted time clocks, by allowing employees to punch IN and OUT from their computer workstations or at a centralized computer.

PC-Key-In's programmable function keys can allow the review of accumulated worked and benefit hours, allow entry of pay code hours and dollar amounts, and can perform department or job transfers.

Inexpensive - A great starter package!

NOVAtime 1000 SBE

NOVAtime 1000 SBE (Small Business Edition) is a "do-it-yourself" Time and Attendance system designed for companies with up to 100 active employees. It includes everything needed to get started, along with a NT300 proximity badge terminal to efficiently collect employees' punch data.

NOVAtime 1000 SBE is a competitively priced, yet it is a full featured and robust Time and Attendance system designed for companies that want big business efficiency at a small business price. The system includes a detailed easy-to-understand Reference Guide, which will walk you through all the steps needed to install and configure the software and hardware—quickly.

Best Value timekeeping solution with a durable proximity clock that is easy to learn and operate!

NOVAtime 1000 SBE BAP

NOVAtime 1000 SBE BAP (Biometric Action Pack) is a "do-it-yourself" Time and Attendance system designed for small companies with up to 100 active employees. The NT1000B Hand Reader biometric time clock identifies the shape and size of each employee's hand to verify the employee's identity as they punch.

The NT1000B Hand Reader biometric time clock is a state-of-the-art biometric time clock that eliminates employee "buddy punching," and no timecards or badges are required.

Hand Readers assure employees are punching IN and OUT accurately, because no one can punch for your employees.

Biometric hand Reader solution eliminates employees "buddy" punching!
